

PRESIDIO

Presidio PULSE™

Managing financial risk today requires a commitment to understanding the continuously changing exposures faced by our clients and developing specific solutions to fit each unique situation. The goal of the Presidio PULSE™ Program is to support, educate, and assist our clients in effectively managing their risk through quality, integrated solutions that optimize clinical and financial outcomes. We offer a wide range of solutions including extensive medical management services, web-based data analysis and reporting tools, carve-out programs for high risk conditions, global emergency services on a 24/7 basis, and automation of the reinsurance process to allow clients the freedom to focus on their success.

PROGRAM FEATURES:

- Clinical consultative services
- Board-certified specialty physician panel with physician-driven consultation services
- Comprehensive analytical auditing services
- Educational support and webinars
- Transplant center of excellence networks and contract evaluation
- Rare and chronic disease management and network solutions
- Top tier primary and supplemental PPO networks with supplemental contract negotiations
- Specialty pharmacy management and network
- 24/7 global emergency services
- Automation of the reinsurance process through web-based analytical tools
